

DR Corn Stoves

Thinking of the environment...

Grain Comfort Stoves, burn renewable resources, wheat, rye, and corn. These resources are grown in your neighborhood, and readily available, at feed stores, your local farmers, and our grain comfort stove dealers.

The comfort of grain...

Our stoves are safe, clean, and environmentally friendly. Unlike wood stoves, they do not lower the humidity, which contributes to the comfort level in your home.

Frequently Asked Questions

Q. What's the warranty like on these stoves?

A. There is a one years warranty on electrical and blowers. The rest of the stove we build, there is a stainless steel auger, the firebox is stainless steel, the whole stove is made of heavy steel, and we warranty for three years. (excluding glass)

Q. Can this stove be installed in an existing chimney?

A. Yes, again we supply you with the venting through the wall, the extra venting is at an addition cost.

Q. Does this unit affect our fire insurance?

A. Our stove should not affect your insurance, but I would call your local fire insurance man to confirm, if they give you a problem, please call.

Q. Do you accept dealer inquires?

A. Grain Stoves Inc. is actively looking for new dealers and distributors. If you would like to become a dealer, please visit our website or call for more information.
